

I-8066

8-channel SSR-DC Output Module

Features

- **Parallel I/O Module**
- Digital Output Channels:8
- Form A x 8 channels
- Contact Rating
- Contact rating:
 - DC: 3-30VDC @ 1A
 - Max. load current: 1.0 A
 - Min. load current: 1 mA
 - Max. off-state leakage current: 0.1 mA (at 30 VDC)
 - 1 cycle surge current: 3A (10ms)
- Max. off-state voltage drop: 1.2V
- Max. operate time: 1 ms
- Max. release time: 1 ms
- Insulation resistance:
 - Min. 1,000 MΩ, at 500VDC
 - Life: long life, maintenance free
- LED indicator for each digital output
- 7000 command compatible
- support dual watchdog function
- support power-up value for each digital output
- support safe value for each digital output
- Power Consumption: 0.8W
